## Neurosonology Professional Training Program

**Cairo University Neurosonology Unit (CUNU)** is pleased to announce for the **“Neurosonology Professional Training Program”**, which is considered the first of its kind in the Middle East.

The aim of this structured training program is to enable candidates to gain knowledge and practical experience for ultrasonographic assessment of the nervous system, cerebral vasculature and its application in every day practice.

**Participants Profile:** The course entitles neurologists and researchers (PhD students, young post-docs and MSc students).

**Course Accreditation:** the course is accredited by the Neurosonology Research Group of World Federation of Neurology (NSRG) with final exam and international certification.

**Duration:** October 1st – July 1st annually

**Deadline for application:** April 1st annually

**Venue:** Neurosonology Unit, Neurology Department, Cairo University.

**Course Modules:** The following modules will be addressed:

1. Basic ultrasound principles and instrumentations
2. Neuro-Vascular ultrasound
3. Neurosonology in Neurocritical care
4. Brain Parenchyma and optic nerve sheath imaging
5. Myoneurosonology (Muscle and Nerve ultrasound).
6. New perspectives and future directions

The number of participants is restricted to 6 candidates annually.

**For further details and registration:**

**Contact the program director:**

**Prof. Dr. Foad Abd-Allah**
